Issues in AA

AA para 5

analysis of overall costs for designated operational entities (DOEs)

- Why was there no possibility to have insight at an earlier stage?
- Commenting before finalizing input to the CMP would have been preferred from our side

Support requested

DOEs are requesting active support by EB and secretariat regarding

- Official recognition by other schemes of UN organisation like ICAO and IMO
- an early confirmation that Art 6.4. will not require new accreditation (but maybe an extension of scopes)
- a recommendation to make use of DOEs in bilateral arrangements

Whatever creates new chances would give an incentive to remain accredited

Thank you for your attention!
